

# GENERAL SOCIAL SCIENCE

## ABOUT

General Social Science is a two-year pre-university DEC program that prepares students for university studies in a broad range of topics from sociology and law, to education, psychology, languages, and more.

The General Studies profile, of the Social Science DEC, provides learners with the opportunity to analyze the human experience through the lens of various perspectives such as psychology, geography, economics, political science, sociology, and administration. The Social Science program aims to introduce you to these realities, explore important theories and authors, and also, help you understand the world in a local and global context.

## IS THIS FOR YOU?

A degree in social science provides graduates with foundational skills that serve as the basis for many specialized fields. Social scientists are influential because the work they do helps determine government policy and can change how we interact with the institutions and environments that influence our behavior, such as the legal system, social services, neighborhoods, schools, and universities.

## AFTER THE PROGRAM?
